PORTABLE SOLAR POWER SYSTEM 20W

LED solar home lighting system is an off-grid solar generator designed to provide stable and reliable power to homes and communities or areas without or even electricity without access to grid power.

The small solar system is characterized by convenient movement, easy installation, and reliable performance, which is very suitable for situations requiring emergency power.

- It is the ideal, reliable energy source for many applications such as lighting, radios, fans, TVs, computers, refrigerators. The USB port is compatible with all 5V-USB charging devices. It can also be used as a backup power source in emergency situations.

PRODUCT SPECIFICATION

Model	0285A20-01
LED Lamp	3014 LED 18PCS 6000K
LED Lamp	5730 LED 36PCS 6000K
Solar Panel	6V 12W, Polycrystalline
Battery Type	LiFePO4 3.2V 12AH
Charging Time	6-8 hours
Discharging Time	10-24 hours
LED	160lm/w
USB Output	5V 2.5A 1pcs
Material	
Product Size	146*77*136mm (System Host)
Warranty	3 years

PRODUCT DETAILS

Strong compatibility

Equipped with three different interfaces: AC, USB, and car charger port, providing AC and DC output in two different voltage modes, which can power multiple devices at the same time.

1 Fast Charging Efficiency

High quality solar panel, 20% of light conversion full charge in about 6-8 hours.

2 Large Capacity Is More Durable

Upgraded high-capacity, 365 days of range with recharge and discharge protection.
